ASBESTOS MANAGEMENT PLAN

LETTER OF PROMULGATION

1. Army Regulation (AR) 200-1, "Environmental Protection and Enhancement," requires that all Installations establish and maintain a comprehensive and effective asbestos management plan. AR 200-1 also outlines procedures for establishing an installation asbestos management program.
2. The objective of the Asbestos Management Plan is to maintain a permanent record on the status and condition of all asbestos containing material in the installation's facility inventory. It must be updated on a continual basis.
3. Design of the plan is to be consistent with AR 200-1. Known as the Fort Campbell Asbestos Management Plan, this plan is hereby approved and implemented at Fort Campbell, Kentucky.

APPROVAL RECOMMENDED BY:

JAMES F. DUTTWEILER
Director of Public Works
